Foreword	18
Alfred Vogel (1902-96)	20
Alfred Vogel	21
Foreword and retrospective on a busy life, by A. Vogel	24
A doctor in your house	29

Part I

Some sample treatments to try out	31
Burns	31
Wounds	31
Inflammation of the eyes	32
Colds	32
Catarrh	33
Hoarseness	33
Chilblains and cold feet	33
Tired feet and legs	35
Haemorrhages and haemophilia	35
Calcium deficiency	35
Vein inflammation	36
Abdominal disorders	36
Hypertension and arteriosclerosis	37
Heart problems	38
Heartburn	38
Stomach ulcers	39
Liver disorders	39
Liver diet	40
Inflamed gallbladder (cholecystitis)	40
Digestive discomfort and cramps	41
Diabetes	41
Constipation	42
Diarrhoea	43
Slimming	44
Headaches	45

Facial pain	45
The iron as a helpful tool	46
Kidney care	46
Urine retention	47
Uric acid	48
Charcoal powder	48
Rheumatism and arthritis	48
Corn (maize) and millet gruel	49
Itching and burning of the skin	49
Eczema and eruptive skin conditions	50
Boils and abscesses	51
Whitlows (paronychia)	51
Swelling and bruises	51
Ivy and fern for insect stings and bites	53
Insect stings in the throat	53
False sea onion	54
Infantile convulsions	54
Conclusion of Part One	55

Part II

Fever – an alarm bell	57
Pain – an alarm bell	61
Advice for expectant and nursing mothers	64
Dealing with calcium and silica deficiencies	67
Dangerous influences during pregnancy	69
Infertility – the pros and cons of hormone treatment	71
Infant care	72
Breast milk	76
Mastitis	78
Solid food	79
Successful cradle cap treatment	80
Infantile eczema	82
Childhood diseases	84
Measles	86
Mumps	88
Whooping cough	88
Coeliac disease	89

Poliomyelitis	91
Influenza advice	93
Viral influenza	95
Our brain	96
The pituitary gland	101
Headache – its causes and treatment	103
The tongue	104
Taking care of your eyes	107
The lacrimal glands	109
Simple remedies for eye problems	110
Purulent infections of the eyes and mouth	111
The nose	112
Inflammation of the ear	115
Sinus infections	118
Throat infections	118
Tonsillitis, a treacherous disease	120
Hayfever	122
Vaginal discharge: causes and treatments	123
Seasonal colds	125
Colds, vitamins and calcium	126
Beware the consequences of infectious diseases	128
Strange laws of immunity	129
Why natural antibiotics are necessary	133
Looking after your health – the best prevention of respiratory diseases	138
Asthma	142
Important factors in the healing of pulmonary diseases	145
Calcium	146
Lesser known benefits of calcium	150
Our blood – a mysterious fluid	152
The lymphatic system	153
Interesting facts about the lymphatic system	155
Looking after our capillary system	159
Our circulation	160
The important function of the arteries	161
Arteriosclerosis, coronary thrombosis and heart attacks	167
Prevention of embolism and thrombosis	169
Calcification and calcium preparations	171

Older people and calcium	172
Dietary advice for hypertension, arteriosclerosis and other signs of old age	174
Wholegrain rice diet to control high blood pressure	178
Controlling blood pressure with wholegrain rice	178
Low blood pressure	179
Treatment of varicose veins	182
Phlebitis (inflammation of the veins)	187
Leg ulcers	187
Circulatory disorders	188
Haemorrhoids	190
The indefatigable heart	191
Lycopus europaeus – a remedy for palpitations	194
Modern heart poisons	196
Beware of heart attacks	201
Athlete's heart	203
Walnut septum tea	204
Angina pectoris	205
Sick without a sickness	207
Visible and invisible goitres	209
Goitre and iodised salt	211
Iodine	213
Post-operative treatment of goitre	215
Menstrual problems	216
Menopausal hot flushes	217
The kidneys	218
Renal colic	221
The urinary bladder	223
Bedwetting (enuresis)	224
Prostate problems	226
Inflammation of the testicles	227
Eczema	228
Overcoming a predisposition to eczema	232
Nettle rash	236
Simple remedies for nerve inflammations	237
What is an allergy?	238
Curing shingles fast	240
Spasms and cramps	240

Our mean sympathetic nervous system	241
Insomnia	243
Some good and inexpensive sleeping remedies	244
New aspects in the treatment of epilepsy	247
The tragedy of hereditary disposition	249
Beneficial influences on psychosomatic disorders	251
Weight control (underweight and overweight)	257
Good and dangerous slimming remedies	260
Risk-free weight loss	261
The stomach	263
Stomach upsets	266
Gastric ulcers	270
Gastrointestinal poisoning	272
Appendicitis	275
Is diarrhoea harmful?	277
Neglecting bowel activity	279
Chronic constipation	283
Do starchy foods cause constipation?	284
Soup for sluggish bowels	286
Herb soup	286
Dysbacteria	287
Intestinal parasites	288
Dangers of the tropics	294
Tropical diseases	297
Causes and symptoms of liver disorders	300
Liver disorders and nutrition	306
Sesame seeds – excellent liver support	310
Infectious liver and gallbladder diseases	311
Jaundice	314
The pancreas	315
Diet for diabetics	318
Multiple sclerosis	320
Arthritis	324
Tomatoes and their link to cancer and arthritis	326
Polyarthritis	327
The living cell	334
The spectre of cancer	340
Is cancer a localised or generalised disease?	342

Is cancer communicable?	344
Susceptibility to cancer despite a healthy lifestyle	345
Birthmarks and cancer	345
Smoker's cancer	346
Deadly dangers in the water	348
Beware of carcinogenic substances	349
Seven basic rules for the prevention of cancer	351
Cancer remedies	353
Bacteria and viruses	355
Our teeth	360
Caring for our teeth	364
Periodontitis	371
Beautiful hair – a natural adornment	371
Hair care	374
Hair tonic and hair restorers	375
Our skin	376
Sensible skin care	382
Should oils be used for skin care?	384
Wrinkles and large-pored skin	385
Impetigo	387
Reliable remedies for fungal infections (mycosis)	388
Nail diseases	388
The feet – our faithful servants	390
Foot care and elimination of foot sweat	392
High heels or no heels?	393
Walking barefoot	394
Walking and exercising on dewy grass in the morning	396
Periostitis	397
Ligament strains and ankle sprains	397
Back problems	398
Hernias	399

Some medicinal herbs

Developing a good herbal remedy	401
Preparing herbal remedies	406
Alpine plants and lowland plants – which are better?	409
Ramsons (<i>Allium ursinum</i>)	413

Mugwort (<i>Artemisia vulgaris</i>)	414
Pimpernel root (<i>Pimpinella saxifraga</i>)	415
Nettles (<i>Urtica dioica</i> , <i>Urtica urens</i>)	416
Angelica (<i>Angelica archangelica</i>)	418
Lady's mantle (<i>Alchemilla vulgaris</i>)	420
Oats (<i>Avena sativa</i>)	421
Maidenhair tree (<i>Ginkgo biloba</i>)	423
Lily of the valley (<i>Convallaria majalis</i>)	427
Sea onion or squill (<i>Scilla</i> , <i>Urginea maritima</i>)	428
Mistletoe (<i>Viscum album</i>)	429
Papaya (<i>Carica papaya</i>)	430
Butterbur (<i>Petasites officinalis</i> [<i>hybridus</i>])	433
Purple coneflower (<i>Echinacea purpurea</i> and <i>angustifolia</i>)	436
Comfrey (<i>Symphytum officinale</i>)	442
Horsetail/Shave grass (<i>Equisetum arvense</i>)	445

Wild fruit and berries

Rose hips (<i>Rosa canina</i>)	447
Barberry (<i>Berberis vulgaris</i>)	449
Sea buckthorn (<i>Hippophae rhamnoides</i>)	450
Rowan berries (<i>Fructus sorbi</i>)	451
Juniper berries (<i>Fructus juniperi</i>)	451
Hawthorn (<i>Crataegus sp.</i>)	453

Some selected homoeopathic remedies

<i>Aconitum napellus</i> (Aconite, Monkshood)	455
<i>Atropa belladonna</i> (Belladonna, Deadly nightshade)	456
<i>Coccus cacti</i> (Cochineal)	458
<i>Guaiacum officinale</i> (Guaiacwood, Roughbark)	459
<i>Kalium iodatum</i> (Potassium iodide)	459
<i>Lachesis</i> (Bushmaster snake)	460
<i>Daphne mezereum</i> (Daphne, Spurge laurel)	461
<i>Sepia officinalis</i> (Common cuttlefish)	461
<i>Tarentula cubensis</i> (Cuban tarantula)	462
<i>Urtica dioica</i> (Stinging nettle)	462

Some biochemical substances

<i>Calcarea fluorica</i> (Calcium fluoride)	464
<i>Natrum muriaticum</i> (Table salt, Sodium chloride)	465
<i>Natrum sulphuricum</i> (Glauber's salt, Sodium sulphate)	466
<i>Terra silicea purificata</i> (Purified siliceous earth)	467

Seasonings

Culinary herbs are medicinal	470
Garlic (<i>Allium sativum</i>)	477
Garlic milk	479
Onion (<i>Allium cepa</i>)	479
Shallot (<i>Allium ascalonicum</i>)	480
Cress	480
Horseradish (<i>Armoracia rusticana</i>)	481
Black or Spanish radish (<i>Raphanus sativus</i>)	483
Salt as a medicine	484

Various treatments and their applications

Serious spring-time vitamin deficiency	486
Spring therapy	488
Purification of the blood	491
Kelp and spring fever or seasonal fatigue	492
The therapeutic effect of water	493
The healing powers of the sea	496
Alternating hot and cold treatments	498
Steam baths at home	498
Hip baths and their medicinal value	499
The Schlenz method (overheating baths)	501
Kuhne's hydrotherapy	507
Friction baths	507
Cleansing (drainage) by stimulation	509
The medicinal value of clay	510
Herb poultices	512
Cabbage leaf and other herb poultices	513
Some testimonials about cabbage poultices	514
The potato as a remedy	515

Papain – its origin and uses	516
The healing powers of milk	519
Whey concentrate	519
The healing properties of wheat germ oil	521
Fortifying tonic with malt extract and vitamin E	524
Honey – its unique therapeutic effect	524
The healing properties of honey	526
The miracle juice of the queen bee	527
Pollen	529
The healing properties of chicken and chicken fat	531
Red slug syrup	533

Aspects of nutrition

Natural wholefoods	534
Helpful diets for the sick	547
Fasting	553
Fattening diets	555
How much food do we need?	556
Natural food good for the nerves	557
Vitamin A	559
Carrots, carotene and carrot concentrate	559
Vitamin B	561
Vitamin E – the fertility vitamin	562
Overcoming protein deficiency	564
Eating vegetables and fruit at the same meal	566
Fruit and vegetable juices and their effect	567
Raw juices, medicinal juices	569
Mixing of juices	572
Switching to a raw food diet	572
Problems with raw food	575
Berries	576
The curative value of berries	578
Caution advised with stone fruit	579
Some rules for eating stone fruit	580
Fruit sprayed with pesticides	583
Rhubarb	584
Sugar	585

The value of natural unrefined sugar	587
Unprocessed dates	589
The value of canned and bottled fruit	590
Our daily bread	591
Whole wheat and other cereals	594
Germinated wheat – an inexpensive tonic	596
Wheat germ	597
Wheat germ and wheat bran	599
Buckwheat (<i>Fagopyrum esculentum</i>)	600
Interesting potato facts	601
Silent partners in the disease process	603
The modern view of fats and oils	605
The importance of oleaginous fruits	610
Sesame seeds	612
Almonds	613
Walnuts	614
Milk and dairy	615
Yoghurt	619
Coffee	621
Sauerkraut (fermented white cabbage)	624
The importance of proper seasoning	626
Table salt	628
Yeast	630

Miscellaneous

Impoverished earth, rich sea	632
No life without iodine	633
Mood swings and melancholy	637
Poisons difficult to eliminate	638
Beware of metallic salts!	645
Poisoning by chemical sprays	647
Copper cookware	649
Are synthetic fibres detrimental to health?	651
Animals as carriers of disease	653
Climatic influences	655
The sun - revitalising and destroying	657
The dangers of intense heat	659

Breathing is life	661
Fresh air and oxygen as healing factors	667
The effects of smoking	668
Stress – a very modern disease	671
Housing and health	673
Health considerations in house building	674
Questions of health and environmental protection	679
Television and health	682
Relaxation	685
Fatigue	687
The nature of exhaustion	690
Natural sleep	692
Sleep hygiene	693
Sleep as the essential health remedy	695
What do dreams tell us about ourselves?	696
The symptoms of ageing	698
Gratitude, a remedy	700
The therapeutic power of music	703
The healing effect of tranquillity	704
